## Product description and key attributes

### Product description

The key product attributes of this product are:

- the product is only available for a maximum *benefit period* of 2 years,
- *Policy* owners can choose to pay premiums by stepped or level premiums for the life of the cover,
- the product is only available outside *superannuation*,
- the *Policy* may be owned by individuals, non-*superannuation* trustees or business entities,
- *Policy* owners have a choice of two home duties income protection products, with a number of included benefits,
- this product is only available for alterations and replacements of existing policies,
- the product is no longer on sale, and is only available for consumers who are reinstating, replacing or repurchasing existing insurance cover (e.g. under a buy back or continuation option), as approved by TAL Life.

### Eligibility criteria

The key eligibility requirements to acquire this product are:

- the *Insured Person* must be age 17–59 at the time of commencing cover or age 17–65 for any replacement or reinstatement,
- the *Insured Person* must be an Australian citizen, a permanent resident of Australia or holder of an eligible work visa or spouse/partner work visa,

If a *Policy* is being reinstated, replaced or repurchased (e.g. under a buy back or continuation), the consumer may still be eligible for the product if they satisfied the eligibility criteria when the prior *Policy* first commenced.

### Benefits and definitions

The product's key benefits are outlined in the table below.

Benefit type	Description
<b>Agreed value</b>	Means the amount of the Severe Disability Benefit is the <i>insured monthly benefit</i> amount and will not reduce when the <i>Insured Person</i> is disabled because their monthly <i>earnings</i> have reduced since taking out the insurance, provided income details were correctly disclosed at that time.

The product is available as a Home Duties Income Protection or Home Duties Income Protection Plus, as outlined in the table below.

### Exclusions and limitations

Exclusions apply if the *sickness or injury* giving rise to the claim is caused:

- by an act of war (this exclusion does not apply to the Death Benefit where the *Insured Person* dies on war service);
- by intentional self-inflicted *injury* or attempted suicide; or
- by normal and uncomplicated pregnancy and childbirth.

Exclusions may apply depending on individual circumstances, which will be notified in writing.

Only sicknesses or injuries that occur after *Policy* commencement are covered by the *Policy*.

### Class of consumers

This product is designed for *Policy* owners who need a monthly benefit of between \$1,000 and \$5,000 per month if the *Insured Person* is severely disabled and unable to perform the defined *normal household duties*.

### Needs, objectives and financial situation

This product provides insurance cover for the following personal financial costs due to the *Insured Person* suffering a severe disability:

- regular household and family expenses (e.g. groceries, *mortgage* repayments, regular utilities), or
- the costs of hiring a housekeeper to replace work done by the homemaker.

Consumers should consider if they have the financial capacity to fund the costs of cover, in accordance with their chosen premium structure, over the period they intend to hold the cover. This includes periods in which financial capacity will change such as, but not limited to, changing employment circumstances, entering retirement or another change in *your* financial situation. Consumers will be required to form their own assessment of their capacity to fund premiums.

This product is not designed for *Policy* owners and insured persons:

- if, when first taking out cover:
  - the *Insured Person* is age 60 or over, or
  - the *Insured Person* is an undischarged bankrupt, or
  - the *Insured Person* is not an Australian citizen, a permanent resident of Australia or holder of an eligible work visa or spouse/partner work visa.
- whose main reason for cover is for a pre-existing condition of the *Insured Person*, or
- where the *Insured Person* is not a homemaker or is working in a regular occupation (including part-time and/or voluntary work) for income, or
- who need a monthly benefit of less than \$1,000, or
- who need a monthly benefit of more than \$5,000, or
- who need cover for an *Insured Person* age 16 or under, or
- where there is a need for more than five *Policy* owners, or
- who need cover for death, *terminal illness*, TPD, trauma insurance or business expenses insurance, or
- who need health insurance.

### Alignment to target market

This product is likely to be consistent with the likely objectives, financial situation and needs of the class of consumers in the target market. This is based on an assessment of the key terms, features and attributes of the product and a determination that these are consistent with the identified class of consumers.

## Distribution conditions and restrictions

### Distribution channels

This product is designed to be sold via the following means:

- by financial advisers, who hold or operate under an Australian Financial Services Licence (AFSL), or
- by TAL Life.

### Distribution conditions and restrictions

This product should only be distributed under the following circumstances:

- the *Policy Owner* and the *Insured Person* meet the relevant eligibility criteria for the product, and
- distribution to consumers is provided by TAL Life through its customer contact centre or a financial adviser who is appropriately authorised, trained and qualified to provide financial advice about life insurance products in the following circumstances:
  - the consumer falls within the target market for this product, and
  - either:
    - the consumer previously held this product, or
    - this product is being acquired to replace a product that the consumer holds which had been issued by TAL Life.

Although the product may be advertised or compared on third party comparison websites, consumers may only make an application for the product to the issuer through a financial adviser or TAL Life as described above.

### Appropriateness of distribution conditions and restrictions

The distribution conditions will result in the product being issued to consumers who are likely to be in the target market because:

- The requirement for distributors to determine whether a consumer is eligible for the product and not permit consumers to be issued the product if they do not satisfy the eligibility criteria means the product cannot be issued to consumers who are not eligible for the product; and
- The requirement for distributors to draw the consumer's attention to the key features of the product, including an estimate of the applicable premium (based on the consumer's requested product benefits), is likely to prompt a consumer to either proceed or not to proceed with an application, based on their financial capacity to afford the applicable premiums and determination of whether the product is consistent with their likely objectives, financial situation and needs.
